Description of Implementation of Consulting Services	Name of Services	Supervision of Rehabilitation Works for Flood Damaged Irrigation Scheme in Malawi	Classification	Design ( ) Construction Supervision (v) Other ( )

Summary of Services

1. Objective of the Project

- Malawi experienced a devastating flood in January, 2015. It caused widespread devastation in terms of lives lost and property damage. Immediately after the flood, the Government of Malawi (GoM) and the World Bank in close consultation with the United Nations and European Union coordinated a Post-Disaster Needs Assessment. In the meantime the World Bank offered to fund the Malawi Floods Emergency Recovery Project (MFERP, the Project) which supports the GoM's broader floods recovery program by providing immediate support to the affected populations in restoring their livelihoods, as well as rehabilitating critical infrastructure essential for the restoration of public service delivery and sustainable economic recovery in the flood-affected areas.
- This Project is activities aimed at realization of restoration of irrigation area lost due to flood damages to irrigation facilities through the reconstruction and rehabilitation of flood damaged irrigation schemes.
- In this phase, the Consultant carried out the actual supervision works on the day to day to make that all what was designed is put on ground/implemented. Also, the Consultant clarified all the necessary information about the design and the drawings for the irrigation infrastructures, such as reservoir, weir, pipeline, canal, etc. The Consultant made sure that the project costs is managed well, not to go over the budget, by checking what was being claimed against the budgets. The Consultant facilitated the monthly site meetings and maintained good relationship with the Client by submitting monthly reports, progress reports and other relevant reports.

2. Project Location: 13 irrigation schemes in 8 District (Blantyre, Chiradzulu, Thyolo, Mulanje, Phalombe, Balaka, Machinga and Zomba), Republic of Malawi

3. Scope of the Services: Construction Supervision and Quality Assurance

- Monitoring, inspection and testing of Contractor's method and schedule
- Quality and quantity control, and Progress management
- Measurement, recording and payment for Contractor's claim and deliverables
- Health and safety risk assessment
- Environmental and social management
- Providing consultants for the relevant authorities (DoI, District Council, Irrigation Service Division)
- Capacity building and knowledge transfer
- Submission of project completion report and Handover
